

2007 Idaho Cycling Enthusiasts Club Race Series

There will be three individual series, each scored separately and with their own series prizes, plus the Best All-Around Rider series, which scores your best events from the three series.

Sen̄r Iguana's Time Trial Series

Dates: Wednesday nights, April 11, May 2, May 9, and June 13

Location and Course: Start/finish at the intersection of Rainbow Road and the south-side I-86 frontage road west of Bannock Peak Truck Stop. Take Rainbow Road exit off I-86 and park on the dead-end portion of the frontage road. Porta-pottie will be available at the start/finish!

Course is north on the frontage road to a turn-around at the truck stop and back. Distance is 6.1 miles.

Entry Fee: No entry fee for paid ICE members and guests. Guests may ride twice free before being required to join the club.

Start Time: Registration opens at 5:45 p.m. Riders go at one-minute intervals starting at 6:30 p.m.

Classes: A, B, Master 45+, Women, Junior

Scoring: Your best three times will be added to determine an overall time for the series. For example, if your four times are 14:48, 15:10, 14:45, and 15:00, your overall time would be 14:48 + 15:00 + 14:45 = 44:33.

Barrie's Sports Hillclimb Series

Dates: Wednesday nights, May 16, May 30, June 20, August 1

Location and Course: Park and register at the Cherry Springs nature area on Mink Creek Rd. Start is at the spring at the bottom of East Fork Rd.; finish is at the Scout Mt. campground. Distance is 5.1 miles, with an elevation gain of about 1500 feet.

Entry Fee: No entry fee for paid ICE members and guests. Guests may ride twice free before being required to join the club.

Start Time: Registration opens at 5:45 p.m. Riders go at one-minute intervals starting at 6:30 p.m.

Classes: A, B, Master 45+, Women, Junior

Scoring: Your best three times will be added to determine an overall time for the series. For example, if you are Sam, and your four times are 20:48, 20:10, 20:45, and 20:00, your overall time would be the sum of the last three, which is 1:00:55.

Rob's Ride-On Bikes Criterium Series, Presented by ISU Cycling Club

Dates: Tuesday nights, May 22, June 5, July 10, July 17, July 24, August 7

Location and Course: Holt Arena parking lot, 1-km course.

Entry Fee: ICE members: \$25 for the series or \$5 per race. Non-members: \$10 per race.

Start Time: Registration opens at 5:30 p.m.

(over)

Classes: Women and Juniors: 6:00 p.m., 20 minutes plus two laps.
B and Master 45+: 6:30 p.m., 40 minutes plus two laps.
Kids (under 10): 7:20 p.m., one or two laps
A: 7:30 p.m., 50 minutes plus two laps.

Scoring: Each race is scored as a points race, in the format we have always used. There will be three intermediate points sprints during the race plus the final sprint. Points are awarded 5-4-3-2-1 for the top five riders in each of the intermediate sprints and 10-8-6-4-2 for the top five in the final sprint. One point for participation will be awarded in all classes but A. Your point totals for your best five races will be added to obtain your overall score for the series. For example, if your point totals for the six races are: 10, 8, 12, 15, 20, 5, your total is the sum of the first five of these, namely, 65.

ICE Best All-Around Rider (BAR) Series Presented by Intermountain Medical Clinic

Entry Fee: To be scored in the BAR series and eligible for the BAR champion's jersey, riders must be ICE members and must pay dues at the rate of \$35 (except juniors, who are automatically eligible if they joined at the regular rate or as part of a family membership). ICE members who paid dues at the regular rates of \$20 individual or \$25 family are NOT eligible! We need to charge the extra dues to pay for equipment, supplies and insurance associated with putting on the series.

Classes: A, B, Master 45+, Women, Junior

Scoring: The BAR series will be scored on **TIME** this year! Your base time is the sum of your best two flat time trial times and best two Scout Mountain hillclimb times. Then, one second is subtracted from that base time for each point earned in the criterium series (all six events or however many you did, not just the best five). Lastly, one second is subtracted for each rider you beat in each sprint in all of the criteriums you did, with intermediate and final sprints counted equally. For example, say you are in the masters 45+ class and there were 10 riders in your class in criterium #1. In the four sprints, you finished 6th, 4th, 5th, and 2nd, respectively. You would receive 11 points for the sprints plus 1 point for participation for a total of 12 points. That would result in 12 seconds subtracted from your base time. The number of riders you beat in those four sprints would be, respectively, 4, 6, 5, and 8. That would give another 23 seconds subtracted from your base time. As an example over the whole series, suppose your best two flat time trial times were 15:00 and 15:02 and your best Scout Mountain times were 25:00 and 26:00. Your base time would then be 81:02. Then suppose over your entire participation at the criteriums you earned a total of 86 points and finished ahead of a total of 95 riders in all sprints put together. Then you would have 181 seconds (3:01) subtracted, and your overall series time would be 78:01. Ties will be broken by head-to-head results.

Other ICE Events

There will be several other competitive events that will not be counted as part of any series. **Fish Creek Ride**, Saturday, August 4: 120 miles with 6000 feet of climbing. **Southeast Idaho Senior Games** for those 50 years old and older: criterium August 7, Crystal Summit HC August 8 (all riders are invited to participate in this—non senior games riders start after all senior games participants), 10 km TT and 20 km RR August 10, and 5 km TT and 40 km RR August 11. **Pocatello Speedway Track Race** August 11: 30 minutes of miss-and-out pain on the oval!
